A COHORT PLC COMPANY

Engineered to **Protect**

A COHORT PLC COMPANY

sea.co.uk/careers

WE ARE SEA

Engineered to protect. We protect what matters - our nations, our waters, our land, our cities, our people, our environment, our world.

ABOUT US

We know our people are what makes the difference at SEA so we ensure we offer them a rewarding and impactful career, but also a great benefits package and plenty of opportunities to grow and develop.

Join us and be part of 300+ people across the UK and Canada doing something bigger: protecting what matters.

PEOPLE FOCUSED

We strongly believe in rewarding our people for their talent and hard work, and consequently, we provide them with a wide range of benefits and rewards.

OUR BENEFITS

Half Day Fridays

Relocation Assistance

Flexi Time and Flexi Leave

Company Group Pension Plan

Employee Discounts

Company Bonus

Private Medical Health Insurance

25 Days Annual Leave

Social Events

WHAT WE DO

Applying our vast knowledge and experience to deliver advanced, intelligent systems for the Defence and Transport industries.

In Defence, we provide state-of-the-art applications for naval ship and fleet protection, and undersea surveillance systems. In-service across the globe, our systems deliver rapid response to threat and system effectiveness and interoperation. Our systems support an ever-growing number of navies across the world, and we continue to bolster our already specialist, on-the-ground knowledge of key overseas markets.

Within Intelligent Transport Systems, we supply high-integrity transport management software and systems, specifically developed for complex road and rail environments. Our multi-platform solutions enable and promote healthier, smarter cities while enhancing road and rail safety for all.

WHAT OUR PEOPLE
SAY ABOUT US

“ I joined SEA in 2013 and can honestly say no two days have been the same! I work with some fantastic, extremely intelligent people, who have supported me and driven me to push further in my career. It's a friendly environment to work in, whether you're at a site, at home or an exhibition. ”

Alice

Marketing Manager

“ The people working at SEA are incredible, I've never worked at a company with so many brilliant people whose minds and skillsets astound me. There's always a buzz of activity on-site, and at the end of the day, I can be at the beach in just 20 minutes. ”

Ben

Supply Chain Manager

EMERGING TALENT

We are future-focused and passionate about securing the growth of our business through the development of the emerging talent of today. Which is why we have an extensive Emerging Talent Programme.

“

SEA was the best place I could've kickstarted my career. They exposed me to real projects, which required me to meet customers and develop sophisticated solutions for them. This gave me invaluable experience, which I can now take out into the workforce. Everyone I worked with was supportive and I'd recommend this programme to anyone looking to launch their career in STEM.

An Electronics Engineering Graduate at SEA

”

OUR VALUES

Safety First

We operate safely and responsibly, protecting each other and the environment.

One Team SEA

We are in this together. One team, working ethically, respectfully & professionally.

People Focused

We operate safely and responsibly, protecting each other and the environment.

Delivery Excellence

We exceed our commitments by delivering timely, quality outputs. We always look for ways to innovate and continuously improve.

Trusted Partners

We partner strategically, collaboratively and always with integrity; whether that is between us inside SEA or externally.
